

**Psalms 109:30 I will greatly praise
the LORD with my mouth; yea, I
will praise him among the
multitude.**

A close-up photograph of a passionflower (Passiflora) in bloom. The flower features a central cluster of yellowish-green sepals and stamens, surrounded by a dense, circular ring of numerous long, thin, purple filaments. The outer petals are a pale, almost white-green color. The background consists of large, dark green, lobed leaves, some of which are slightly out of focus, creating a sense of depth. The lighting is soft, highlighting the intricate details of the flower's structure.
