

A close-up photograph of several pink hydrangea flowers. The petals are a vibrant pink color with some lighter, almost white, variegation. The flowers are in various stages of bloom, with some showing the central green and yellow stamens. The background is a soft, out-of-focus pink, creating a cohesive and gentle aesthetic.

Proverbs 31:15 She riseth also while
it is yet night, and giveth meat to
her household, and a portion to
her maidens.
