

A photograph of a green plant with several long, pointed leaves growing out of a bed of brown mulch. The plant is centered in the lower half of the frame. The background is filled with the texture of the mulch, which consists of small, irregular pieces of wood and bark.

Mark 02:12 And immediately he
arose, took up the bed, and went
forth before them all; insomuch
that they were all amazed, and
glorified God, saying, We never
saw it on this fashion.
