

3685. Strong's Dictionary Study

3685. oninemi {on-in'-ay-mee}; a prolonged form of an apparently primary verb (onomai, to slur); for which another prolonged form (onao) is used as an alternate in some tenses [unless indeed it be identical with the base of 3686 through the idea of notoriety]; to gratify, i.e. (middle voice) to derive pleasure or advantage from: --have joy. [q]
