

A close-up photograph of a succulent plant, likely a species of Sedum or Crassula, with small, fleshy, green leaves. The leaves are arranged in dense, upright clusters. Some leaves show signs of being waterlogged or overwatered, appearing swollen and slightly yellowish. The background is a soft, out-of-focus green, suggesting a natural outdoor setting. The lighting is bright, highlighting the texture and color of the leaves.

**John 05:26 For as the Father hath
life in himself; so hath he given to
the Son to have life in himself;**
