

Word Study for --- EYESALVE

A wide-angle photograph of a vast agricultural field. The field is filled with rows of low-growing, leafy green plants, likely a type of vegetable or herb. A central irrigation system is visible, consisting of a network of pipes and nozzles that spray a fine mist of white liquid over the plants. The spray creates a bright, horizontal band of light against the dark green foliage. The background shows more of the same field stretching into the distance under a clear sky.

Revelation 03:18 I counsel thee to
buy of me gold tried in the fire,
that thou mayest be rich; and
white raiment, that thou mayest
be clothed, and that the shame of
thy nakedness do not appear; and
anoint thine eyes with eyesalve,
that thou mayest see.
