

Word Study for --- SHELTER

A close-up photograph of a sunflower head, showing the intricate pattern of the seeds and the surrounding yellow petals. The seeds are a mix of brown and green, and many of them have small, clear water droplets on their surface, giving the image a fresh and dewy appearance. The text is overlaid on the upper portion of the image.

**Job 24:08 They are wet with the
showers of the mountains, and
embrace the rock for want of a
shelter.**
