A close-up photograph of a cluster of purple flowers, likely azaleas, with prominent stamens. The flowers are in various stages of bloom, showing the delicate structure of the petals and the intricate details of the reproductive parts. The background is a dark, out-of-focus green, suggesting foliage.

# Word Study for --- ONIONS

**Num 11:05 We remember the fish,  
which we did eat in Egypt freely; the  
cucumbers, and the melons, and the  
leeks, and the onions, and the garlic:**

A photograph of a rocky coastline. In the foreground, white-capped waves are breaking onto a sandy beach. In the middle ground, several large, dark, craggy rock formations protrude from the water. One rock on the left is particularly prominent, with a smaller rock in front of it. To the right, another rock formation has a natural archway. The sky is a clear, pale blue. The overall scene is bright and captures the raw power of the ocean.
