

A close-up photograph of a raspberry bush. The raspberries are in various stages of ripeness, with some showing a vibrant red color and others still appearing greenish or brownish. The berries are clustered together and are supported by a blue plastic trellis structure. The leaves are green and have serrated edges. The background is a soft-focus green, suggesting a garden or field setting.

Genesis 27:14 And he went, and fetched, and brought them to his mother: and his mother made savoury meat, such as his father loved.
