

A close-up photograph of a pink hydrangea flower cluster. The outer petals are large, light pink, and have a delicate, veined texture. In the center of the cluster is a dense core of small, purple, rounded buds, some of which are beginning to open, revealing yellow stamens. The background is a soft, out-of-focus green, suggesting foliage.

**Psalm 13:06 I will sing unto the
LORD, because he hath dealt
bountifully with me.**
