

A close-up photograph of a pink lily flower. The main flower is in full bloom, showing six petals with a gradient from light pink to a deeper pink at the base. The center of the flower features several stamens with dark, oval-shaped anthers. In the foreground, slightly to the left, is a closed flower bud, which is a pale, yellowish-pink color with a greenish base. The background is filled with green lily leaves and other flowers, some of which are out of focus. The overall lighting is bright, highlighting the textures of the petals and the smooth surface of the bud.

**Psalm 78:13 He divided the sea,
and caused them to pass through;
and he made the waters to stand as
an heap.**
