

A close-up photograph of a dark, layered rock surface, possibly volcanic or sedimentary. The rock is dark grey to black, with distinct horizontal layers and a rough, fractured texture. Small patches of bright orange lichen are scattered across the surface, particularly in the crevices and on the upper layers. The lighting is bright, creating strong shadows and highlights that emphasize the ruggedness of the rock.

Proverbs 14:26 In the fear of the
LORD is strong confidence: and
his children shall have a place of
refuge.
