

A close-up photograph of blackberry branches. The branches are covered with vibrant green, serrated leaves and clusters of ripe, dark purple-black berries. Some berries are still attached to their fuzzy, brownish-green husks. The background is a soft-focus blur of more green foliage and branches, creating a natural, outdoor setting.

Leviticus 15:16 And if any man's seed of copulation go out from him, then he shall wash all his flesh in water, and be unclean until the even.
