

A large, layered rock formation, possibly a natural rock shelter or a large boulder, is partially submerged in a stream. The rock has distinct horizontal layers and is surrounded by dense green foliage and trees. The water is clear, reflecting the surrounding greenery and the rock itself. The scene is set in a lush, wooded area with sunlight filtering through the trees, creating a warm, golden glow.

to save me: therefore we will sing
my songs to the stringed
instruments all the days of our life
in the house of the LORD.
