

A close-up photograph of a stone fountain. The fountain is made of light-colored, textured stone and has a wide, shallow basin at the top. Water is spraying out from the basin in several places, creating a dynamic scene with white foam and splashing water. The background is a dark, rippling body of water, possibly a pool or a stream, which provides a strong contrast to the light-colored stone and the white foam of the water. The overall lighting is somewhat dim, highlighting the textures of the stone and the movement of the water.
