

A close-up photograph of a hydrangea flower cluster. The flowers are in various stages of bloom, with some showing vibrant pink and purple hues, while others are a pale, almost white-green color. The petals are layered and have a soft, velvety texture. The background is a soft-focus blur of similar colors, creating a sense of depth and a natural, garden-like setting.

because it divideth the hoof, yet  
cheweth not the cud, it is unclean  
unto you: ye shall not eat of their  
flesh, nor touch their dead carcase.**
