

A scenic view of a rocky coastline. The foreground is dominated by dark green foliage, likely from a tree or large shrub, framing the scene. The middle ground shows a large, smooth, light-brown rock formation that has been eroded into a shape resembling a face. The water is a deep blue, with white foam from waves crashing against the rocks. In the background, more rugged, dark brown rock formations rise from the water's edge. The overall atmosphere is serene and natural.
