

A close-up photograph of green pine needles, likely from a loblolly pine, filling the background. The needles are long, thin, and have a slightly curved shape. They are densely packed and show some natural texture and color variations, including some lighter green and brownish tips. The lighting is soft, highlighting the individual needles.

**2nd Samuel 15:28 See, I will tarry in
the plain of the wilderness, until
there come word from you to
certify me.**
