

A close-up photograph of a garden scene. In the foreground, several bright pink cyclamen flowers are in bloom, their petals showing a delicate texture. The flowers are surrounded by dark green, rounded leaves with prominent white variegation. In the background, there are more green leaves, some with similar variegation, and a hint of a brown, textured surface, possibly a path or a wall. The overall lighting is soft, highlighting the vibrant colors of the flowers and the intricate patterns of the leaves.

other kine came up after them out
of the river, ill favoured and
leanfleshed; and stood by the
other kine upon the brink of the
river.**
