

A photograph of a pumpkin plant. The image shows several large, green, lobed leaves with some holes, likely from insects. There are several bright yellow flowers in various stages of bloom. A large, pale yellow pumpkin fruit is visible in the center. The background is dark, suggesting the ground or a shadowed area.

**Numbers 24:08 God brought him  
forth out of Egypt; he hath as it  
were the strength of an unicorn:  
he shall eat up the nations his  
enemies, and shall break their  
bones, and pierce them through  
with his arrows.**
